

Ponyvalley is an online game based on virtual animal breeding, you will have to feed your pony and take good care of him on a daily basis.

Players are very fond of the reproductive system in Pony Valley which allows them to mate adult ponies in order to get new born baby ponies. Each baby is a mixed and direct result of his parents' characteristics.

ILLIMITED CUSTOMISATION

The originality of the game lies in customizing each pony using what we call Traits: Coats, glittering manes, hooves, special tattoos ...

These traits truly embellish our ponies and is needed if you wish to climb the ranks for best breeder or prove that you have the prettiest pony in the game!
